ENTREPRENEURIAL EMPOWERMENT

To all female scientists, let's go on a journey of discovery together. This workshop is designed for all women and people that identify as women who want to strengthen their personal and professional growth. Our goal is to create a safe space that recognizes and empowers this diversity, fostering an environment where all participants, regardless of their gender identity, feel encouraged to realize their strengths and fully unlock their potential. Let yourself be inspired by peers as well as female sciencepreneurs who have taken this path and share their insights through short videos.

Who we are

Young Entrepreneurs in Science is an interactive workshop programme for PhDs and postdocs to help you ignite your entrepreneurial spirit! Together with your peers, you will learn methods and skills to realise your innovative potential.

Admission is free and no previous knowledge is required.

Workshop Goals

- Reach clarity and confidence for yourself on the subject of founding
- Reflect on your own resources and potential support
- Get inspired by female founder personalities

Apply now

Register until 19.11.2025 and find more information here:
