

ZOOM Update

In order to use all functions of ZOOM at any time, you need the most recent ZOOM-version. Updates are not automatically installed.

Please check the update option in ZOOM manually on a regular basis.

This short guide shows you different options how to update ZOOM.

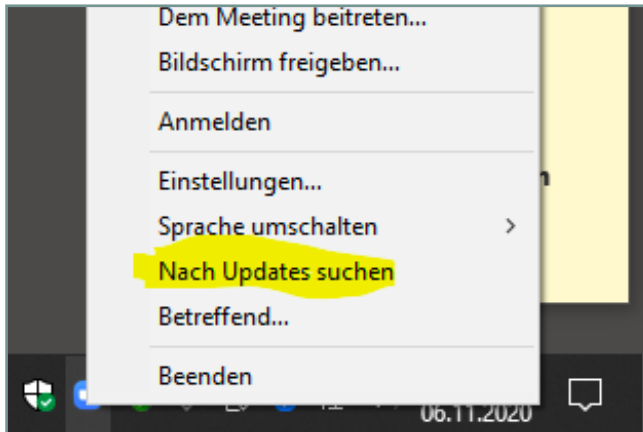

As a **lecturer**, you can check for updates in the ZOOM Client after logging in, see Fig. 1.

Option for Lecturers: ZOOM via Client (Fig. 1)

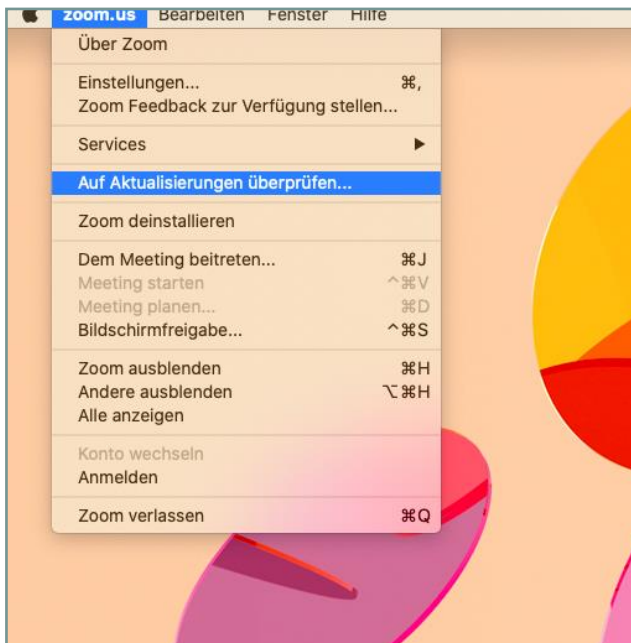

As a **participant** in an online class, you have the following options for the zoom update depending on your operating system (Windows/Mac). Wenn Sie Windows nutzen, können

Select the ZOOM icon in the system tray with the right mouse button and then select the "Check for Updates" option, see Fig. 2.

Option for Students (Windows Users: Fig. 2)

If you are using Mac, select ZOOM from the menu bar and then click the "Check Update" option, see Fig. 3.

Option for Students (Windows Users: Fig. 3)

The options shown also work when you are logged into ZOOM.

If you have further questions about the use of ZOOM, please contact the Support Team Digital Teaching of the Leuphana Teaching Service (digi-support@leuphana.de). Students please contact the student support team Digital Teaching of the Leuphana Teaching Service (stud.digi-support@leuphana.de).
