How to connect to the Wi-Fi

*iOS*

1 Which WiFi do I need?

Leuphana

- for all students and employees of Leuphana
- Internet and intranet access
- with login details

eduroam

- for all students and employees of Leuphana University and eduroam member institutions
- Internet and intranet access
- with login details

2 Connecting to the Wi-Fi

1. Open your app store and download the geteduroam app. You will need at least iOS 15 to do this.
2. Launch the app and enter Leuphana in the search bar. Select a Wi-Fi network and confirm by tapping Connect.
3. For **Leuphana** and **eduroam**, please log in with *firstname.lastname@(stud.)leuphana.de* and your Wi-Fi password.
4. Allow the app to add the networks and connect to them.
5. Leave the app installed so that your login details are stored and you remain connected.
