

How to connect to the VPN

iOS/iPadOS

Updated: 06/2025

You need:

- Internet connection
- current iOS/iPadOs
- Name of your Leuphana account and Leuphana password

App Store

1

Installation and adding the Connection

1. Download *Cisco Secure Client-AnyConnect* in the App Store.
2. Open the App and go to *Connections* → *Add VPN Connection...*
3. Enter **vpn.leuphana.de** as the server address and confirm with *Save*
4. Allow *AnyConnect* to *Add VPN Configurations*

2

Establish VPN-Connection

1. Open *Cisco AnyConnect*.
2. Switch the Button to *On*.
3. Choose between *Intranet* and *Online-Recherche*.
4. Log in with the name of your Leuphana account and Leuphana password.
