How to connect to the VPN

Stand: 06/2025

You will need:

- Internet connection
- Administrator rights
- Name of your Leuphana account and Leuphana password

Installation

- 1. Go to vpn.leuphana.de
- 2. Choose *Online-Recherche* and log in with the name of your Leuphana-Account.
- 3. Start the download.
- Open the downloaded file and follow the installation assistant.

System extension

Allow the *Cisco AnyConnect* system extension. To do this, go to *Settings* \rightarrow *General* \rightarrow *Login Items*

Without this, the VPN connection will not work!

Connecting to the VPN

- 1. Open Cisco AnyConnect.
- 2. Enter *vpn.leuphana.de* and click *Connect.*
- 3. Choose between *Intranet* and *Online-Recherche.*
- Log in with the name of your Leuphana-Account and your password.
