

# **PROF. DR. WELZEL INITIATES AUTHORS' WORKSHOP AT CSD**

On May 17, a three-day authors' workshop will take place at the CSD. Besides Prof. Chris Welzel (CSD), Prof. Amy Alexander (Goteborg), Prof. Evert van de Vliert (Groningen), Prof. Ronald Fischer (Wellington) as well as Prof. Andrey Scherbak (St. Petersburg) will participate.

The authors' workshop aims at preparing an article identifying deeper historic origins of free developments. The central concept behind is about encultured freedoms, which the authors summarize as (a) resource of freedom (education, information, standard of living), (b) liberal traditions (emancipative values) and (c) civil liberties. Already the authors have collected the appropriate data. Furthermore, the relevant correlations are clear to them. The authors' workshop will help to clarify focusing the results.
