

Teaching award of the Leuphana Universität to Prof. Dr. Lin Xie and Mathias Ellmann

2018-07-07 Together with Mathias Ellmann Dr., Lin Xie, Assistant Professor for Data Science at the Institute of Information Systems received the Teaching Award for their submitted teaching concept. In the teach-/learn-project "Operations Research Lab" the students develop on the basis of a data analysis possibilities of optimization and present these possibilities in real-time simulation. Their proposals then will be discussed with external project partners.

Besides expertise also social competences are promoted. Application relatedness, project management, theory and research also are connected in this seminar.

We congratulate Prof. Dr. Lin Xie and Mathias Ellmann to their successful teaching concept and to the teaching award of the Leuphana University!!

Prof. Dr. Lin Xie
