

# Interim Survey for Bachelor Students

**Interim Survey College 15 May to 5 June**

The interim survey offers the opportunity to give feedback on your studies at Leuphana, e.g. on the starting of your studies, your study situation, general conditions and challenges. The survey results are evaluated with those responsible for studies and teaching, including in the quality circles. This gives students the opportunity to address the need for change and to benefit from it themselves. All Bachelor students in their 4th semester at the College were invited by email to participate in the online survey. Every opinion counts!
